

# MOTI GELANA

## Computer Science Graduate

### Profile

Highly motivated Computer Science graduate with a strong foundation in software development, algorithms, and system design. Proficient in C++, Java, HTML, CSS, JavaScript, and PHP, with hands-on experience in modern web development using Vue.js, Nuxt.js, React, Next.js, Tailwind CSS and Laravel. Skilled in building efficient, scalable applications and passionate about solving complex problems with innovative solutions.

### Work Experience

Sep,  
2023

#### Hope Enterprise University College

##### Real Estate Website Project

- I worked on a real estate website team project, where I contributed to both the frontend and backend. I was involved in the development of key features and ensuring a seamless experience for users interacting with the platform.

Dec,  
2023

July,  
2024

#### Ewenet Communication

##### Maid Finder Website Project

- I was part of the team developing the Maid Finder Project, a platform that connects households with maids. I contributed to both the frontend and backend, focusing on the development of key functionalities such as job postings and service requests. I collaborated with the team in sprint planning, code reviews, and testing to ensure the platform was functional and met project requirements.

Sep,  
2024

#### Hope Enterprise University College

##### Moyategna Website Project

- As part of the development team, I worked on Moyategna, a platform that connects customers with professionals. I contributed to both the frontend and backend, helping to design, build, and maintain the core features of the platform. I played a key role in ensuring that the platform was scalable, efficient, and delivered a seamless user experience.
